yca@yca.org.ar

On February 8 you will have a new chance to take part of the nautical history: we will launch the Oceanic Race Buenos Aires Rio de Janeiro 2020. This is the longest regatta in the Southern Hemisphere and includes a 1200-mile route between the cities of Buenos Aires and Rio de Janeiro.

In 1945 Hipólito Gil Elizalde, director of the Yachting Argentino Magazine and crew member of Fjord II, began to develop the idea of this regatta that united the Yacht Club Argentino and the late Clube Rio de Janeiro. Its first edition, in 1947, counted with the participation of 10 boats that departed in January of that year. Eight of these vessels were Argentine and two were Brazilian.

Guanabara Bay received the fleet with joy: Felipe Justo's Alford was the first winner of this event that over the years would become an emblematic regatta. Through the decades crews from Germany, Argentina, Australia, Brazil, Chile, Spain, United States, Holland, England, Italy, Norway, Peru, Portugal, South Africa and Uruguay have taken part of this event.

Bonanza

Every three years the most experienced sailors come together again to challenge the ocean and travel those 1200 miles, writing new pages of nautical history. You can be a part of this legend. Do not miss the 2020 edition, where we will also celebrate 100 years of late Clube Rio de Janeiro, making this a real party.
